Subject: Bridgeton OU-1 sampling schedule

Dan,

I wanted to touch base and update you regarding the upcoming Bridgeton OU-1 groundwater sampling event.

Herst & Associates, Inc. will be collecting water levels beginning the week of July 1, 2013.

Mobilization of sampling equipment to the site will occur on or before July 8, 2013, weather dependent.

Sampling is scheduled to begin during the afternoon of July 8, 2013 and should take approximately 2.5 to 3 calendar weeks to accomplish.

If you have a list of preferred locations that you would like to collect split samples please let me know and we'll add them to the list.

Please call me with any questions or comments.

John D Regan
Senior Geological Engineer
